-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claims 1 to 3 are pending.

1. This application is in condition for allowance except for the following formal matters:

The disclosure is objected to because of the following informalities: page 1 – paragraph 0001, the reference to a related application should be updated to include the serial number of the related application. Reference numeral 180, shown in figure 6 for example, does not appear to be referred to in the specification.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

2. The following is an examiner's statement of reasons for allowance: the closest prior art of record, Mei (U.S. 6,757,137) discloses (note figures 3A-3C in particular) an integrated lead suspension comprising: a load beam 10; a flexure 30 having a longitudinal axis and a lateral axis that is transverse to the longitudinal axis, side extants 44,46 which can be considered flexure legs and that are spaced apart from the longitudinal axis at a flexure leg distance measured between the longitudinal axis and the flexure legs, and a tongue 34 for providing a mechanical support structure; outrigger leads 104,105 mounted to the flexure for carrying electrical signals, each of the outrigger leads being laterally spaced apart from the longitudinal axis at an outrigger distance that is greater than the flexure leg distance, thereby defining said each of the

Art Unit: 2652

outrigger leads as being completely laterally outboard of the flexure legs; a slider 25 mounted to the tongue of the flexure such that electrical contact is established between the slider and the outrigger leads, the slider having a head mounted thereto for reading data from and writing data to the recording medium; and the outrigger leads and flexure are bent to define a pitch static attitude of the slider (note figure 3C which shows the bends in question). What Mei does not disclose or suggest is having both the outrigger leads and the flexure legs bent so as to define the pitch static attitude.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jefferson A. Evans whose telephone number is 571-272-7574. The examiner can normally be reached on Monday to Friday, 9:00am to 5:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hoa Thi Nguyen can be reached on 571-272-7579. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
